

COTTON ROPE

100% PURE COTTON OR BLENDED COTTON-POLY

Our Cotton Rope is an economical and excellent twisted 3-strand utility rope. Cotton is the softest of all the fibers used for making rope and cord, and is noted for its strength.

We offer both the industry standard Cotton-Polyester Blend and the 100% Pure Cotton construction. The addition of polyester serves to enhance durability.

Cotton Rope has low stretch, and is easy to splice. Great for light-duty applications, and holds knots well. Good handling characteristics, with a soft hand-feel. Cotton is ideal for work with livestock because of its relative lack of abrasion.

These ropes are put-up in coils or pre-cut hanks, depending upon rope diameter. Net weights are subject to a plus/minus 10% variation allowance.

COLOR – TYPE	DIAMETER	LENGTH	PUT-UP	NET PRODUCT WEIGHT	UNITS / PALLET
COTTON-POLYESTER BLEND ROPE – WHITE					
White	3/16"	2250'	Tube	25 LBS	36
White	7/32"	2000'	Tube	25 LBS	36
