POLYPROPYLENE ROPE COILETTES

3-STRAND POLYPRO. POPULAR DIAMETERS & USER-FRIENDLY LENGTHS.

Individually packaged. Same great product. Manageable pricing.

Polypropylene is strong and lightweight. It floats, and can be stored wet. Very little stretch, with a sure gripping surface. Excellent wet/dry strength.

Easy-to-slice and easy-to-splice. Unaffected by rot, mildew, oil, gasoline, water, and most chemicals.

Smooth surface feel for easy handling. Added abrasion and UV resistance. All-purpose: can pull conduit, works as barrier/crowd control, perfect in/around water/snow, good electric utility rope, effective tie-down, and a great general-purpose choice.
